

# Remember these times forever.

Family, children's and couples portraits have become a tradition in the natural beauty of the Mid-Atlantic coast and boating is such a special part of our lives.

Families have a way of changing. That is precisely why you should take this opportunity now while you have this chance in your life.

The bays and waterways are a perfect backdrop for a boating portrait that will touch your heart, and warm your home.

*How long has it been since your family, children or spouse have been photographed?*

Take this opportunity to schedule and plan your portrait session now, in case this year goes by as fast as the last.

*Where will you display your memory maker boat portrait?*

Your family portrait is the most important decorative focal point in your home. It tells the world how much you value your family and reminds us daily of the important things in life.

# Imagine a family portrait with your boat

A fine portrait is a gift you give yourself, your family and generations to come.

*Please reserve your summer session early to assure the appointment of your choice. Prime sunset session, holiday, and weekend appointments are in high demand.*

A Division of Portraits In The Sand

# The very best days of your life!

With nearly 20 years experience of living, boating and photographing at the beach, Certified Professional Photographer David Koster provides you with the skills, patience, knowledge, and training to create a custom photographic piece of art you will truly treasure.

We create quality portraiture all year long, in color or black and white, from finished prints and cards, to fine-art canvas wall portraits.

There are many options and locations for your boating portrait including the beach, bay, ocean, backyard, marina, canal, pier or someplace special to you.

We use advanced satellite and radar monitoring of the weather to insure the best window of opportunity for your portrait session.

You will be able to preview and select your portraits the following day in our state of the art studio.

Your satisfaction with our work is fully guaranteed for memories that you will treasure for a lifetime.

*"Dave, Just a quick note that you make the whole picture taking job a very pleasant and fun filled afternoon. Our family still talks about the great time we had. Our friends and family have really enjoyed the portraits. What an honor for both our family and Levi to be pictured in your Portrait Gallery. Hope to be having more taken real soon."*  
Thanks, Bill & Kelly Warner
