

*Remember these
times forever.*

Pet portraits have become a tradition in the relaxed, natural beauty of the Mid-Atlantic beach coast and pets are such a special part of our lives.

Dogs and animals have a way of changing. That is precisely why you should take this opportunity now while you have this chance in your life.

The ocean and the beaches are a perfect backdrop for a pet portrait that will touch your heart, and warm your home.

*How long has it been since
your family or pet have
been photographed?*

Take this opportunity to schedule and plan your portrait session now, in case this year goes by as fast as the last.

*Where will you display your
portraits in the sand?*

Your pet portrait is one of the most important decorative focal points in your home. It tells the world how much you value your pet and reminds us daily of the important things in life.

Imagine your pet's
portrait
on the beach

A fine portrait is a
gift you give yourself,
your family and
generations to come.

*Please reserve your summer session early to assure the
appointment of your choice. Prime sunset session, holiday,
and weekend appointments are in high demand.*

A division of Portraits In The Sand

The very best days of you and your pet's life!

With nearly 20 years experience of living and photographing pets at the beach, Certified Professional Photographer David Koster provides you with the skills, patience, knowledge, and training to create a custom photographic piece of art you will truly treasure.

We create quality portraiture all year long, in color or black and white, from finished prints and cards, to fine-art canvas wall portraits.

There are many options and locations for your pet and dog portraits including the beach, golf course, home, backyard, porch, boat, studio or someplace special to you.

We use advanced satellite and radar monitoring of the weather to insure the best window of opportunity for your pet portrait session.

You will be able to preview and select your pet portraits the following day in our state of the art studio.

Your satisfaction with our work is fully guaranteed for memories that you will treasure for a lifetime.

"Dear Dave, Thank you for the beautiful portraits you took on the beach! And for your patience, understanding and time, we're so very appreciative. The portraits you took were far beyond our expectations and are so perfect."

*With sincerity and appreciation,
Nancy and Craig Polinchock - Danburg, CT*
